## Gages and Manufacturers

The USC Foundation publishes Standards for field test kits in the *Manual of Cross-Connection Control, Tenth Edition*. At this time there are currently no field test kits approved by the USC Foundation.

However, the USC Foundation has conducted reviews of the gage equipment to see if it complies with the generalized guidelines shown in Section 9 (Field Test Procedures) of the *Foundation's Manual of Cross-Connection Control, Ninth Edition*. And, the current gages that have been found acceptable are listed below.
